

Positive Veritas

Keynote Presentation

The Big Picture

- ❑ **Before Veritas:** You rely on paper documents or non-searchable digital copies to conduct your tax research; it's tough to find the key passages that provide insights to the case at hand. You spend more time searching and less time advising and this increases the cost of providing the service.
- ❑ **After Veritas:** All important tax resources are organised in one place. You find what you're looking for in seconds instead of hours. You save time, reduce your costs, increase your capacity to service clients and you maintain/ improve competitiveness.

What is Positive Veritas?

- ✓ A comprehensive database of Cyprus tax laws, regulations, circulars and other resources.
- ✓ A powerful search engine, enabling you to scan horizontally across documents and vertically over time.
- ✓ A fully-supported commercial product that is kept continuously up-to-date.
- ✓ Accessible on all your devices, including tablets and smartphones.
- ✓ Offered as an online service and billed on a subscription basis.

Do you Benefit?

- ✓ Are you involved in tax work?
- ✓ Are you offering tax advice? Or handling tax legal cases?
- ✓ Are you an accounting or audit practitioner?
- ✓ Do you need to navigate through the ever increasing complexity of tax regulation and compliance?
- ✓ Do you know where to look? Do you always have a simmering doubt if you have covered everything?

If the answer to any of those questions is yes, you would greatly benefit from Positive Veritas.

Tax Research *in* Cyprus

Paper resources and
unsearchable digital copies.

The Status Quo

Your Resources are Scattered

Research requires you to go through numerous paper documents or PDFs from an array of sources to locate the relevant data to examine.

You Could Miss Important Facts

You might wonder if the answers you find are conclusive. There might be case law or a subsequent circular that can influence your opinion, but it's difficult to locate.

You Search Manually (∴ Slowly)

You look for relevant passages and facts by reading documents. Even if you can focus your search by experience you still have to scan those sections, often line by line.

You Lose Time (∴ Money)

You spend a disproportionate amount of time searching for relevant content instead of solving the problem. This ultimately boils down to higher cost.

Introducing Veritas

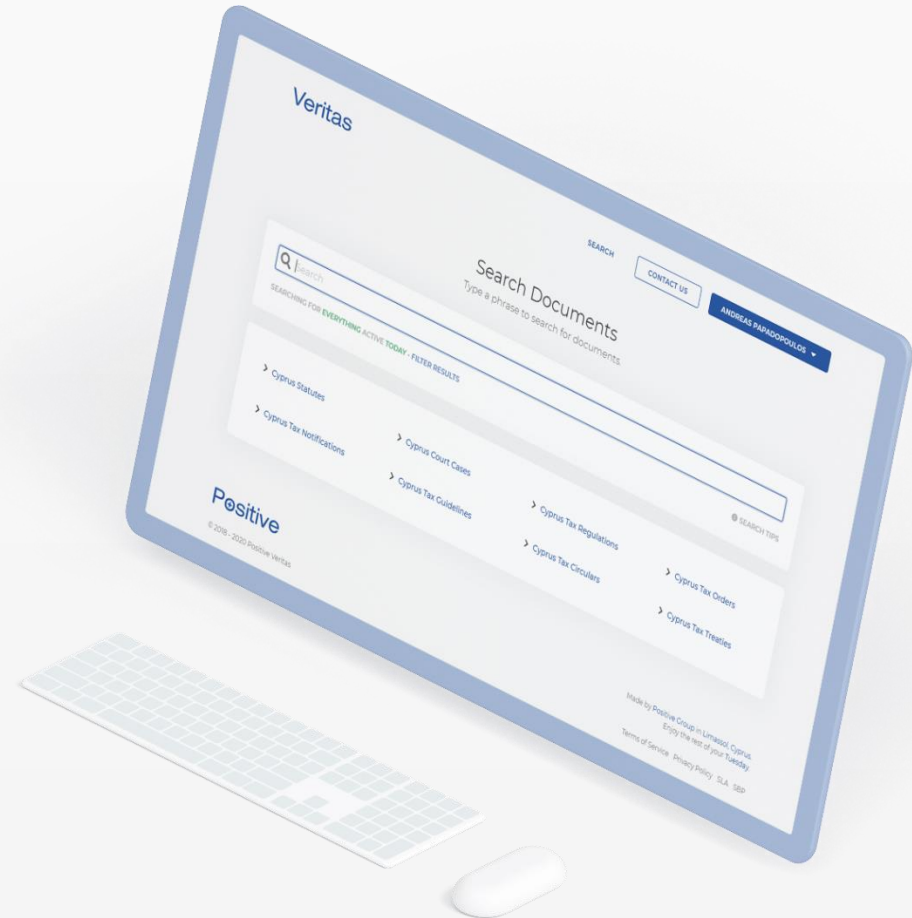

Broad coverage meets smarter
search. All in a single package.

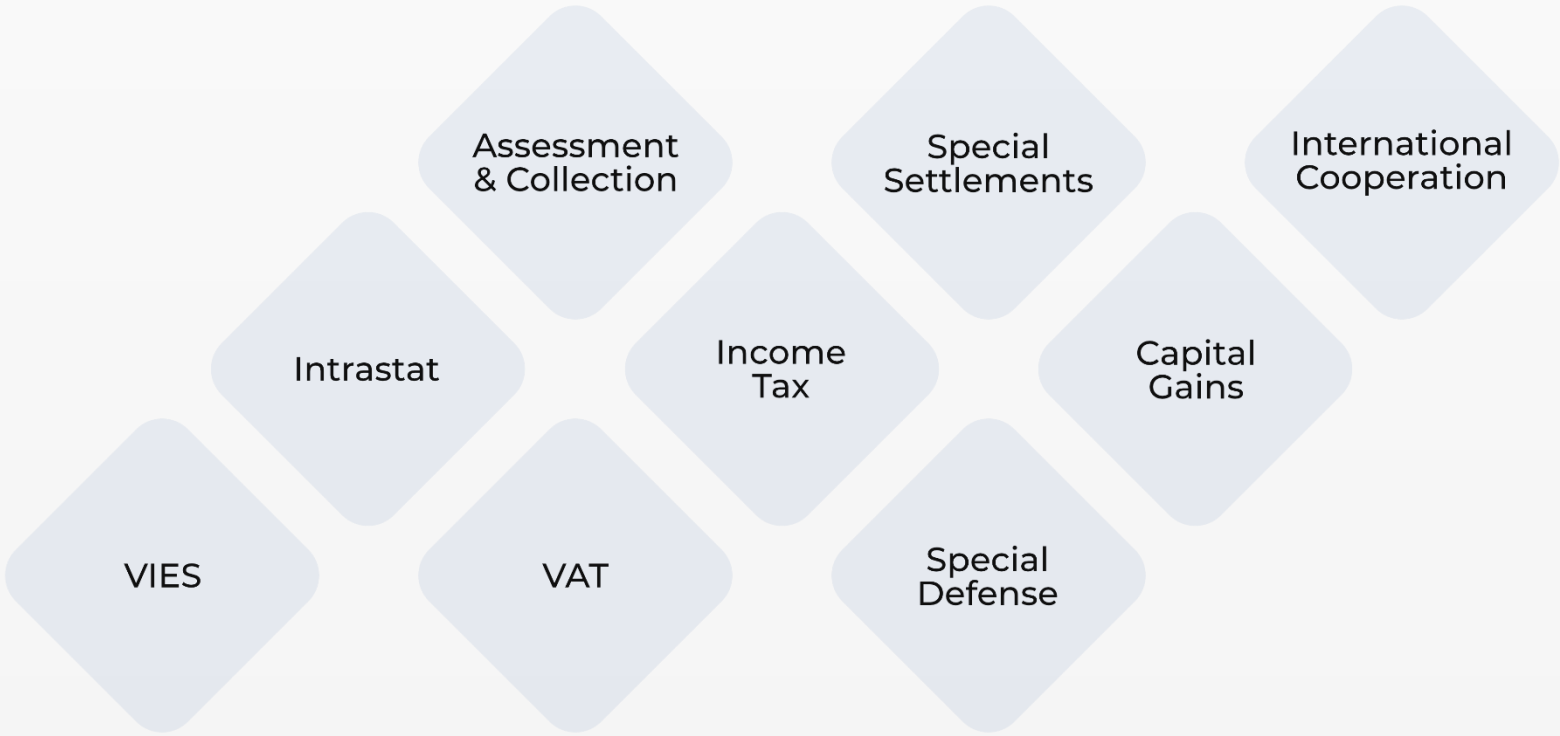

Comprehensive Coverage

Veritas' *diligently updated* database covers everything a tax practitioner in Cyprus might need, including:

- ✓ Tax Statutes (Laws)
- ✓ Tax Regulations, Orders and Notifications
- ✓ Tax Treaties (Double Taxation)
- ✓ Tax Court Case Judgements
- ✓ Tax Circulars
- ✓ Tax Tribunal Rulings (*coming soon*)

Comprehensive Coverage

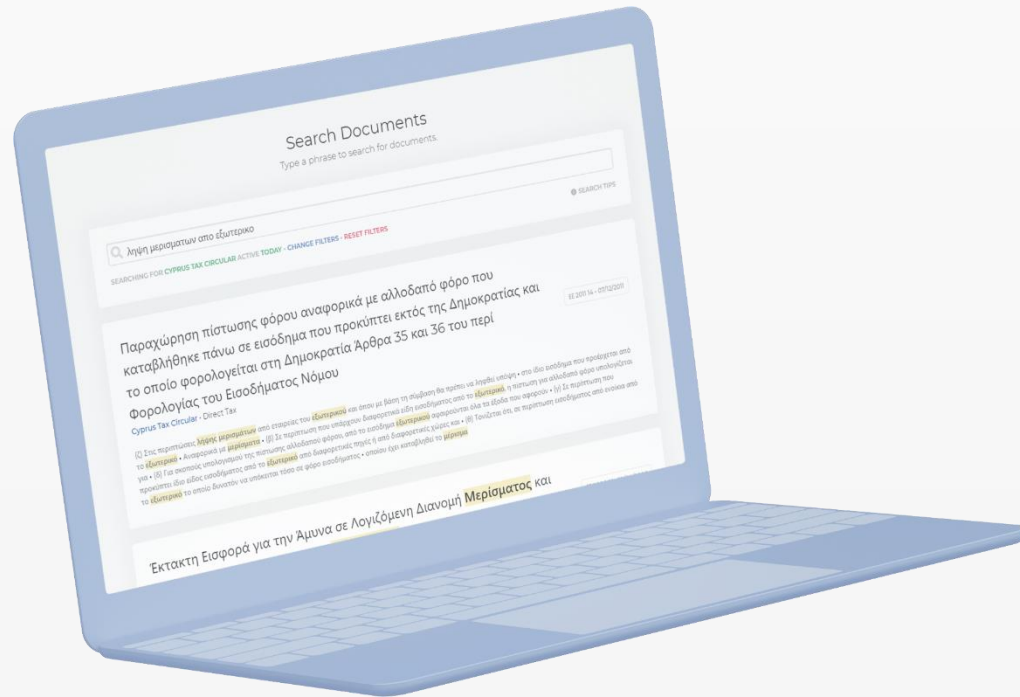

One Place, Not All Over The Place

- ✓ Veritas *searches horizontally across all tax documentation* by default; helping you surface documents and passages that pertain to your query from a single place. Gone are the days of searching in multiple books and websites.
- ✓ Need to search in a specific set of documents? Veritas has *extensive filtering capabilities* allowing you to broaden or narrow your search *within certain document categories* or *active timeframes* as you see fit.

Search Naturally and Precisely

- ✓ With Veritas, you can *use natural language* to describe what your query; spelling mistakes will automatically be corrected and similar words and synonyms will be taken into account.
- ✓ Your results will be ranked according to the documents best matching your query. For each such document, Veritas will also surface *the most relevant passages within*. Clicking them will automatically take you to the relevant part of the document while adding highlights.
- ✓ Veritas' search engine only take a few milliseconds to scan across the entire spectrum of Cyprus tax documentation, surfacing the most relevant results: hour-long manual searches are a thing of the past.

Versions and Metadata

- ✓ In addition to its main body, *each document in Veritas contains additional “metadata” information*, such as date of publication, date of entry into force, commentary, document codes and many more.
- ✓ Within each document, Veritas allows you to traverse its evolution through time to *navigate to the version most appropriate to your circumstances*. This functionality is also built into search; limiting your results to the date range you select (*present day by default*).
- ✓ Large documents include a *clickable index of sections*, allowing you to hone in on what you’re looking for faster.

Save Time, Save Money

- ✓ A Veritas search takes a few milliseconds to surface the most relevant results. Compared to the manual approach, this capability will *accelerate your tax research by a factor of 4 to 10*, potentially *reducing your overall engagement costs by 40%*.
- ✓ As a result you can increase your capacity to handle engagements, or you can pass this saving on to your clients who will appreciate the faster turnaround and/or increase your engagement volume. *For less than what you're probably already paying for the paper equivalent.*

Free for 30 Days

We think it'll your most valuable companion, but we give you a 30-day free trial to make sure.

Pricing Plans

After your free trial, it's **honest pricing** with **no hidden fees**. You can **upgrade or cancel anytime**.
